20-21 September 2018

MUSC and University of Sussex Continues to Strengthen 2+2 Double Degree Program

The delegation from School of Life Science, University of Sussex (US), United Kingdom, Prof. Michael A. Titherage, made a visit to the Faculty of Science, Mahidol University, during 20-21 September 2017.

On 20th September 2017, Assoc. Prof. Wannapong Triampo, Deputy Dean for Educational Service of Salaya Campus, welcomed Prof. Michael Titherage at SC1 Building, Salaya Campus. The purpose of this session is to introduce 2+2 Double Degree Program (DDP) in Biomedical Science (BM), how to complete a Double Degree Program from MUSC and US, and other relevant information to students and parents. In this occasion, qualified SCBM student had a chance to have an admission interview with the University of Sussex.

Assoc. Prof. Sittiwat Lertsiri, Dean of the Faculty of Science, Mahidol University, together with MUSC executives hosted a reception for the delegation at K101 Room, Faculty of Science, Phayathai campus on 21st September 2017. The objective of this meeting is to enhance and strength up a 2+2 DDP. Since a fruitful collaboration between MUSC and US in Biomedical Science program, they agree to sign the extension of Memorandum of Understanding in DDP. Moreover, MUSC and the University of Sussex have together established DDP in Bioinnovation, and it will be launched in 2018. The program aims to produce graduates who are nationally recognized as a valuable human resource for technology and innovation and entrepreneur. On this occasion, Prof. Titherage visited Excellent Center for Drug Discovery (ECDD) in order to seek a potential area for future collaboration.
