# Dimensions

Re-imagining discovery and access to research

Speaker

**Mr. Danu Poyner**

Product Specialist (Asia-Pacific) Dimensions  
& Altmetric at Digital Science

Dimensions Analytics provides access to Dimensions' complete, comprehensive, and connected data set covering publications, grants, patents, clinical trials, datasets and policy documents. In addition, it supports more complex data analysis to meet the needs of academic institutions, government organizations, research funders, publishers, and R&D departments. We even provide a configuration that enables you to securely integrate your own confidential data.
