

# National Chung Cheng University - Mahidol University Joint Symposium on Biomedical Sciences and Beyond

**Date:** July 21, 2017 from 13:00 to 16:00

**Venue:** Stang Mongkolsuk Meeting Room, Faculty of Science, Mahidol University (Phayathai Campus), Bangkok

**Please register at**

<https://goo.gl/ZuKx60>

## Speakers

**Professor  
Michael Chan**

Epigenetic silencing of the dual-role signal mediator, ANGPTL4 in tumor tissues and its overexpression in the urothelial carcinoma microenvironment

**Associate Professor  
Yao-Ting Huang**

Genome assembly and antibiotic-resistance detection using high-throughput sequencing

**Professor  
Feng-Sheng Wang**

Optimization in network medicine

**Professor  
Chien-Yen Chen**

Biosurfactant from *Bacillus subtilis*

**Professor  
Jing-Cherng Tsai**

Lactic acid-based chiral block copolymers: Syntheses and molecular self-assembly

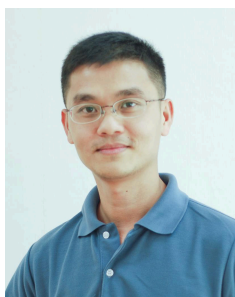

**Professor, M.D.  
Prasit Palittapongarnpim**

Concurrent genomics study of *Mycobacterium tuberculosis* and their hosts in Chiangrai, Thailand

**Associate Professor, M.D.  
Chatchai Muanprasat**

Chitosan oligosaccharide: AMPK-promoting activity and its potential therapeutic applications

**Assistant Professor  
Siripong Thitamadee**

Vaccination of shrimp against White Spot Syndrome Virus (WSSV)

**Associate Professor  
Tavan Janvilaisri**

Multidrug resistance in *Clostridium difficile*

**Assistant Professor  
Toemsak Sriksirin**

Red Blood Cell (RBC)-immobilized antibody surface interaction

### Organizers:

Department of Biotechnology, Faculty of Science, Mahidol University, Thailand  
Systems Biology and Tissue Engineering Research Center, National Chung Cheng University, Taiwan
