❖ Exchange activities and experiences

Japanese always have their responsibility. From the left hand picture, it is a board for take leave that you need to write the date and reason of your leave of absence. The yellow tags are all lab member name when you arrive the laboratory, the tag need to turn around into white color and the yellow color it mean you already get back home.

Beside the hard work, they always have relaxing activities and everyone have to join the BBQ party.

Bicycle is one of the popular transportation in Japan. Everywhere has a road for bicycle.

Japanese is well known of a good discipline, example they always stand on the left hand side of the escalators and other side is for the hurry route.

In weekend or holiday is a family day.

Fireworks festival is one of the most summer festival in Japan, This is the festival for relaxation in summer. They usually wear Yukata and eat something during watching the firework with family, lover or friends.

One of the well-known place for relaxation in Japan is Onsen or hot spring, the importance traditional while using Onsen is you have to take off all your clothes.

From this exchange program, I had a chance to present our Mahidol University and Thailand about Thai cultures, festivals, attractive places and foods, so I decided to cook Pad-Thai for my Japanese friends.
