Course Selection

List of courses offered to exchange students:

<https://nus.edu.sg/registrar/docs/info/prospective-students---non-graduating/ng-courses.pdf>

(Please note that NUS Semester 1 courses for 2025 will be updated closer to the start of the Semester 1 exchange application period)

Please check to ensure that you **meet the pre-requisites** for the courses you apply for. To be considered for higher level courses, you need to upload the syllabi of the courses which you have completed at your home university to the application portal to show that you have met the pre-requisites.

Undergraduate students should **select courses with course code starting from level 1000 to 4000**. The graduate-level courses starting from 5000 & above are not offered to undergraduate students.

Business and Law courses are limited and **only offered to students nominated for Business and Law-specific exchanges**. University-level or other Faculty-level exchange students will not be considered for Business and Law courses. Refer to the [Restriction List](#) for more details.

We are experiencing **high demand** from exchange students for **Architecture and Computer Science courses** which make enrolment into these courses **extremely competitive**.

Course enrolment is subject to vacancies and student demands. Please note that there is no guaranteed enrolment into any specific courses.

Please ensure **flexibility** in your course selections for your exchange semester. We recommend that you **consider some back-up courses** in the event of oversubscription or timetable clashes.

Refer to this [link](#) for more info on course related matters.

Accommodation

On-campus accommodation options:

<https://osa.nus.edu.sg/accommodation/hostel-options/>

On-campus accommodation is **limited and not guaranteed**. You can submit your housing application after receiving your NUS admission offer and completing Registration Part 1. It will take some time for you to complete the registration process so please start early so that you can meet the housing application deadlines.

When you login to the university housing application portal (UHMS), please select your preferred room type from the housing options available for your selection. Due to limited availability, you will not be able to view the full list of on-campus housing.

Please indicate your housing preference as "Residential College" during your exchange application to be considered for this housing option. Only selected students will be able to apply for Residential College housing. However, if you would like to be considered for other housing options such as halls, houses and student residences, please select "Other Student Residences" in your exchange application.

Should you have any medical conditions which require special accommodations, please upload the relevant information with your housing application.

When you receive the housing offer, we strongly encourage you to **be flexible in the allocated room type and accept the offer within the acceptance deadline**. Failing which, your room will be automatically released by the system to another student on the waiting list. As we are working on a very tight timeline, late applicants or appeals for extension of deadlines will not be considered.

Exchange students should also **seek off-campus accommodation options concurrently** as there is increasing demand from international students in Singapore.
