

How to Dispose

A Used Face Mask Properly

to Prevent the Spread

Use Fold Wrap Dispose

Used face mask

is considered an infectious waste which can transfer the virus to the contact person

Do not reuse or keep it in your accommodation longer than 7 days

1 Wash hands thoroughly with alcohol gel or soap

4 Fold it half inwards twice

2 Take a mask off by pulling the straps without touching a mask sheet

5 Wrap the folded with two straps tightly

3 Make a mark

6 Put in a bag separate from other wastes, tie the bag (write "Infectious Waste" on the bag)

7 Wash hands thoroughly
