

SCIEX Innovation Seminar 2019

Date: 25 Nov 2019

Time: 9:15 am to 12:30 am

Venue: Room K642, 6th Floor, Chalemprakit Building

Time	Topic
09:30 – 10:30	SWATH-MS: Technology and Applications
10:30 – 10:40	Break
10:40 – 12:00	Enabling Precision Medicine with Industrialized Quantitative Proteomics
12:00 – 12:30	Question and Answers

Many challenges exist in realizing the potential of precision medicine, especially in producing robust, reproducible quantitative proteomics measurements. This seminar will address many of the challenges that currently exist in making these measurements in a high-throughput, industrialized fashion:

- Microflow LC SWATH® for enhanced workflow robustness and sample throughput
- Cloud-based data processing to address the challenges of large data file and large sample numbers
- Integration with other omics data to provide more complete biological insight

Reservation period: now – 22th November, 2019

Miss Pattharaporn Philasopa Tel: 02-201-5973
