Agenda

Advances technology of Nano particle tracking analyzer (NTA)

Date	23 March 2023
Place	Room K642 Central Instrument Facility, Faculty of Science, Mahidol University
Speaker	Dr. Sven Kreutel (Sales Director of Particle Metrix GmbH)

9:00	Registration
9:10	Introducing Particle Metrix and Omega Scientific (Thailand)
9:20	Technology and typical applications of the ZetaView
10:30	Coffee break
10:50	Advances technology of Nanoparticle tracking analyzer (NTA)
12:00	Launch
13:00	Workshop part I
14:15	Coffee break
14:30	Workshop part II
15:30	Q&A and summary
16:00	End

Bio sketch of Presenter:

Dr. Sven Kreutel studied biology at the University of Hohenheim in Stuttgart, Germany. After his graduation in biology, he received his PhD in microbiology at the University of Hohenheim under Prof. Dr. Andreas Kuhn and Dr. Dorothee Kiefer working on the light sensing and signal transduction in photosynthetic bacteria.

Since then he worked in different sales and sales manager positions within the life science industry from clinical research over biology to nanoparticle sciences. In 2021 he was appointed as CEO of the American subsidiary of Particle Metrix.
