Suggestions :

1. I think you should ask for students in that first whether or not we are interested in MUSC or not .This is so wasting time . May be I could use these few hours to finish some essential homework to improve my grade instead
2. Listening to this doesn't make me feel any inspire since I have only 1 year to decide my carreer and I know what am I going to be anyways
3. I believe that it is not useful for me as a people who don't want to enroll in Bachelor of Science.Tutoring session would be better
4. Please come again
